

Junior Software Testing Engineer

For our office in Merelbeke, Belgium we are currently looking for a highly motivated Software Tester. You will join our QA team, which assists the development team in delivering high-quality software products to our customers.

About our company

With offices in Belgium, Germany, Italy, US and a global partner network, HYBRID Software is a software development company focused on innovative productivity tools for the graphic arts industry.

HYBRID Software's CLOUDFLOW workflow, our PACKZ editor, and our integration products offer a unique set of advantages that include native PDF workflows, vendor-independent solutions based on industry standards, scalable technology and low cost of ownership. These products are used by hundreds of customers worldwide in all areas of prepress and print.

www.hybridsoftware.com

Your Responsibilities

- You will carry out manual and automatic testing on our interactive applications and our workflow products.
- You are in direct communication with development for problem analyse and testing.
- You could be involved in activities such as requirements analysis, planning, test design, security and vulnerability testing, performance, releasing, documenting, training and post-release support.
- You will have the opportunity to develop and support automated testing scripts and procedures.
- Help with writing javascripts to dynamically enhance the functionality of our basic software.

Your qualifications

- Experience of manual testing (experience with test automation tools would be a bonus but not necessary).
- Microsoft Windows.
- Javascript.
- Good written & verbal communication and the ability to work in a team.
- A good understanding of the software development process will help.
- A degree in 'computer science' or 'graphics and digital media'.
- Commercial experience will help, but not required.
- Knowledge of Adobe Suite is a plus.
- Fluent in reading, writing and speaking English.

What we offer

- We offer a job with flexible working hours, and a relaxed working atmosphere.
- Your starting salary will depend on your current skills and experience. Demonstrate your suitability for the role.
- You will be able to progress within the company and have structured objectives to increase your salary as you grow.
- At HYBRID Software we value our customers and our employees. We have a flat organizational structure and we strongly encourage any initiative coming from our people.

If you are interested in the role please get in contact ASAP as we will be making a job offer when we find the right person rather than waiting for a closing date. Don't hesitate to send your resume to hr-europe@hybridsoftware.com.
